State standards reflected in this link include sharing artwork with others and examining/critiquing student artworks and famous works. Students learn how history and culture have influenced art throughout time. I also teach artistic movements and art history to every grade level.

## Kindergarten through Fifth Grade Grading Policy

Of course, art is very subjective and all children are at different developmental stages. Therefore, I do my best to remove subjectivity from the grading process and base my grades on the following criteria:

1. Children are given specific art goals at the start of every new project. For example, an art goal for a fifth grader may have to do with the use of foreground, middle ground, and background. A first grader may have an art goal of using primary colors. Children are reminded of their art goals throughout the project, and meeting these goals are a majority of their grade.
2. Neatness and effort – I look to see if a child is rushing to finish a project or are they developing stamina. I am not looking for perfection, just a reasonable attempt.
3. Participation – this grade is based on class behavior for grades 2 -5. Each week, your child has an opportunity to earn 100 points for participation. Each time your child needs redirecting for excessive talking, distracting others, not cleaning up, etc., he/she loses 5 points from the possible 100. I do give warnings before points are deducted.

My main focus is on the creative process, rather than the final outcome, and I do my best to foster a peaceful, inventive environment. My goal is simply for your child to love art and grow in creativity and craftsmanship.

If you would like to meet with me to discuss your child's progress, please do not hesitate to contact me at [jfragapane@gmail.com](mailto:jfragapane@gmail.com).

Christ's Peace to You and Your Family,

Jackie Fragapane
